

Platinum Restore Eye Cream®

SKIN TYPE: ALL SKIN TYPES

This powerful peptide cream is optimized for the delicate tissue around the eye area, helping to reduce the appearance of puffiness and fine lines while increasing luminosity. A proprietary complex of three peptides plus licorice root helps to brighten under the eyes while simultaneously helping to refine texture. Hesperidin methyl chalcone helps to restore smoothness to the eye contour, while allantoin and green tea help to comfort and soothe. Retinyl palmitate, a gentle retinoid, and antioxidant vitamin C help to optimize skin tone and tonicity over time.

DIRECTIONS

Apply gently to the undereye area as a finishing step, morning and night.

QUICK SELLING TIPS

- Hesperidin methyl chalcone helps restore smoothness to the eye contour.
- Three proprietary peptides plus licorice helps to brighten the undereye area and refine texture.
- Retinyl palmitate, a gentle retinoid, and vitamin C help optimize skin tone and tonicity over time.
